

Frank obtained his Ph.D. in Electrical Engineering from Ruhr-Universitaet Bochum, Germany, in 2008. During his graduate studies, he focused on modeling and simulating the plasma sheath in high intensity discharge lamps. After graduating, Frank joined Computer Simulation Technology (CST), which was subsequently acquired by Dassault Systemes in 2016 and is now part of the SIMULIA brand. Frank worked in a number of technical presales roles and currently leads the global electromagnetics team within the SIMULIA Industry Process Consulting organization.
