IEEE North Jersey Section PACE and American Engineering Association, Inc. presents: Engineers Meet: Subjects Affecting Engineering Jobs

Agenda: This meeting will be dedicated to the subject of Engineering Jobs in New Jersey, and the North Jersey Section.

This meeting will bring you face to face with the issues that influence the Job Market for our Engineering Section Members. For example:

- Degree production,
- Real estate,
- local state taxes,
- Supply-Demand –
- Legislation –
- *Budgets* (*state* & *federal*).

The topics may include engineering specialties that are growing, shrinking, or remaining level.

One interesting subject:

http://www.aea.org/documents/research/critique_of _nsb.pdf can be reviewed.

Our goal: ideas shared over our open discussion will help members better understand their employment opportunities. You are encouraged to attend and bring your spouse and associates to this presentation

No Admission Charge.

Location: Clifton Memorial Public Library. 292

Electron Devices Society presents: Terrestrial Radiation Induced Soft Errors in Integrated Circuits

Speaker: Stewart Rauch of IBM Semiconductor Research and Development Center (NY)

Abstract: The impact of background radiation on microelectronics is generally unappreciated. Soft errors, or single event upsets, are random, transient, recoverable failures unrelated to any defects or device shifts. There are three main types of radiation that cause soft errors in integrated circuits. The discoveries of these various mechanisms are discussed from a historical perspective, and the current physical understanding of each is presented. Next, methods used to test and model the soft error rate of circuits are explained. Finally, process, technology, and circuit mitigation techniques are covered.

Biography: Dr. Stewart Rauch is a Senior Technical Staff Member at IBM Semiconductor Research and Development Center (NY), specializing in hot carrier, bias temperature instability, and soft error reliability of state of the art CMOS technologies. He is a Senior Member of IEEE, a Member and Distinguished Lecturer of the Electron Devices Society, and frequent reviewer for the IEEE Transactions on Device and Material Reliability (TDMR.)

Email: rauchs@us.ibm.com

IEEE Consultants' Network of Northern New Jersey presents: Growing Your Small Business

Speaker: Michael Grottola, MGG Consulting of Upper Saddle River, NJ, is a senior IEEE member

Abstract: Growing Your Small Business

Our talk will guide you through an "end to end" sales process, especially suited to selling professional services. The presentation assumes little or no selling experience. You will learn how to:

- Acquire Leads
- Win Sales
- Close Sales: Win, Lose, Draw

The task harder than any engineering problem is to convince a new prospect to spend that "first dollar". The presentation will give you keen insight into the strengths and challenges facing technology-savvy professionals and how to overcome them.

Biography: Michael Grottola is a senior IEEE member who has over 30 years of business and technology experience, specializing in consulting, mentoring decision makers and monetizing business ideas. In the latter part of his career, Mike has focused on assisting entrepreneurs with regard to small business startup and growth, by helping them secure capital.

Mike has both domestic and international business experience. With a BSEE from Manhattan College in Riverdale, New York, he worked in defense, commercial and financial industries.

His firm, MGG Consulting of Upper Saddle River, NJ, audits new ideas and growth plans, assesses their viability, and creates business and marketing plans to deliver practical "Go To Market" strategies. Mike can be reached at http://mgg-consulting.com.

ABOUT THE NETWORK:

Founded in 1992, the IEEE Consultants Network of Northern NJ encourages and promotes the use of independent technical consultants by business and industry.

ALL ARE WELCOME!

No fees or registration required.

IEEE North Jersey AP/MTT Chapter presents: Millimeter Wave Integrated Circuit Techniques and Technology

Speaker: Dr. Shiban Koul, Professor at the Indian Institute of Technology Delhi and the Chairman of Astra Microwave Products Limited, Hyderabad

Abstract: Millimeter Wave Integrated Circuit Techniques and Technology

Millimeter waves offer widespread applications in defense, space and commercial sectors. In this talk, different technologies for building Millimeter Wave Integrated Circuits and Subsystems will be presented. Starting from conventional microstrip technology, other key technologies including suspended stripline, dielectric integrated guide, Finline, LTCC, MEMS and MMIC will be described. Design methodology leading development of several high performance components/ subsystems at 35 GHz, 60 GHz and 140 GHz along with experimental results will be presented. The talk will conclude by giving a comparison of various technologies.

Biography: Shiban K Koul is a Professor at the Indian Institute of Technology Delhi. He is also the Chairman of Astra Microwave Products Limited, Hyderabad, a major company involved in the Development of RF and Microwave systems in India. His current research interests include: RF MEMS, Device modeling, Microwave and

Millimeter wave IC design and Reconfigurable microwave circuits including antennas.

Dr. Koul has been a member of the IEEE for the past 30 years. He has served as the Chairman of IEEE ED/MTT Chapter, India Council in (1988, 89, 1992, 93, 94, 95). He has also been a member of the executive committee of the IEEE Delhi Section and IEEE ED/MTT Chapter, India Council. He was the past chairman of the Fellow and awards nomination committee of IEEE Delhi Section. Currently, he is the Chairman of Delhi section and also chairman of the Microwave Theory and Techniques Chapter under Delhi section. He is currently a serving ADCOM member and a Member of IEEE MTT society's Technical committees on Microwave and Millimeter Wave Integrated Circuits (MTT-6) and RF MEMs (MTT-21), Member of India Initiative team of IEEE MTT-S, Membership Services Regional Coordinator India, and Vice Chair MGA and MTT-S Speaker bureau lecturer. Dr. Koul is the author/co-author of 199 Research Papers and 7 state-of-the art books and holds 6 patents and 6 copyrights. He is a Fellow of the Institution of Electrical and Electronics Engineers, USA (IEEE), Fellow of the Indian National Academy of Engineering (INAE) and Fellow of the Institution of Electronics and Telecommunication Engineers (IETE).

IEEE North Jersey Section: Membership Development Event

IEEE Senior Member Drive- Meeting Agenda: Get your senior-membership application process, started now and have your references completed by mid-June. Review by the IEEE senior member selection review panel will be conducted at the end of June 2012.

For Senior Member requirements please visit: http://www.ieee.org/membership_services/membership/senior/senior_requirements.html

For application, please visit:

http://www.ieee.org/membership_services/membership/senior/senior_application.html

If you are having trouble finding that last senior member reference, bring printed out hardcopies of your full resume and senior member application portfolio with you to the meeting for review by other senior members and to find that last reference. Registration link is below.

All section members are invited to attend, especially those who are current senior members and are willing to volunteer as references, and any of those interested in becoming more active in general IEEE activities, volunteering, or those seeking senior membership.

If you are interested in serving as a reference contact our membership development chair at the address: northjerseymembership@yahoo.com or mani.iyer@ieee.org

The event will be held on Wednesday, June 6, 2012, 5:30-6:30PM, there will be a free buffet dinner and an opportunity to network with section members. Seating is limited and registration is required for all.

The meeting will take place at Bell Laboratories, Alcatel-Lucent, in Murray Hill, NJ. in Room 6A-106, which is located near the main entrance behind the Bell Labs Showcase exhibition area. It is not necessary to sign in to access this area.

Please register in advance, using the vTools link to provide the meeting organizers an accurate head count. You can change/cancel the registration if your plans change.

Job Advertisement for IEEE

The Information Technology Program in the College of Computing Sciences at the New Jersey Institute of Technology invites applications for the position of University Lecturer. This full-time position requires teaching four undergraduate/graduate courses (per semester) in topics such as:

- System administration
- Database administration
- Web technologies
- Cloud administration

An MS degree in a computing-related field is required. A demonstrated record of successful teaching experience in a college setting is strongly desired. Applications from candidates with prior professional and industrial experience in one or more of these areas are highly encouraged.

To apply, visit https://njit.jobs/. (At that page, choose "Search Positions" on the left. Then select "Information Technology – 00650" in the Department field to find the job listing.)
